St. Louis-to-Chicago Air-
plane Crashed in
Ill. Blizzard

Petersburg, Ill., March 7—(AP)—A blinding blizzard that glazed its wings with ice was blamed today for the crash of a St. Louis-Chicago airliner which cost four lives last night.

The dead: Hugh Sexton, aviation editor of the Chicago Tribune.

G. H. Waeljen, 18 East 41st Street, New York.

Walter Hallgren, veteran transport pilot who had flown nearly a million miles.

W. N. Bell of Chicago and Columbus, O., an employee of the Jeffrey Manufacturing Company.

The plane, an American Airways craft bound for Chicago, plunged down through swirling snow and crashed into a deep drift on a farm near here.

Prevented Five

Apparently all four victims died instantly. Hallgren, calm to the last, cut his switch when he saw a crash was inevitable, thereby preventing fire.

Company officials in Chicago said it was obvious that Hallgren attempted to land the craft safely but that darkness prevented it.

Orva Altig, on whose farm the plane fell, and R. D. Knoles, another farmer, witnessed the crash. Both dashed to the scene to find the victims dead.

Altig said he heard the plane roaring over his farmhouse at a low altitude.

Farmer Tells of Crash

"I was afraid at first," he said, "that it was going to hit the house. I grabbed a lantern and dashed outdoors. It seemed to be about 500 feet high, trying to get higher. I thought he was going to make it when suddenly I heard the motor stop, and then there was a terrific crash."

"I rushed back into the house, got a flashlight, had someone call neighbors, and then plowed through the snow to the wreck, about an eighth of a mile away. Everything there was still. I shout-ed, 'There was no answer.'"

"I played the flashlight over the wreckage. I saw the legs of one of a man sticking out. I lifted them and they were limp. I knew he was dead."

Neighbors and the coroner pulled the bodies from the wreckage and took them to undertaking parlors here and at Athens, Ill.

Warning Radioed

American Airways officials said apparently the crash occurred before Hallgren had time to acknowledge a radio message ordering him to return to St. Louis because of the weather.

When the ship was about 50 miles from the scene of the crash, they said, the pilot requested that visibility be about an eighth of a mile, ceiling about 500 feet, and ice was coating the wings. A wireless order directed him to return to St. Louis but it was never acknowledged.

The airline said the crash was the first fatal one on the St. Louis-Chicago line.

Sexton was a pilot himself with several hundred hours at the stick. He was formerly on the staff of the St. Louis Globe-Democrat.

Verdict Which Provides
25 Years for Murder
to be Appealed

Chicago, March 7—(AP)—Only a higher court or death itself, can save Dr. Alice Wynkoop from the penitentiary now.

A jury convicted her last night of slaying her daughter-in-law Rheta, in the "operating table murder" that horrified the nation. It fixed her sentence at 25 years imprisonment in the penitentiary. Only two ballots were taken.

The murder drama that began when Rheta's body was found, a bullet in the back on Dr. Wynkoop's operating table last November 21, kept its interest in rushing crescendo to the last.

With the jury in its place, ready to report its verdict, Judge Harry B. Miller summoned the jury physician to stand by the 63-year-old woman, and be ready to administer strong heart stimulants lest the shock of the verdict strike her dead.

Needed No Help

She did not need his ministrations. She heard the verdict as she sat in her wheel chair without sign of a quiver. She turned to two of her children, Walker and Dr. Catherine Wynkoop, and said: "Go home, now children, and sleep. Your mother is not guilty. No, no, not guilty."

In a moment it was over and this paradox of a woman, with a keen, strong mind in a frail body, was being wheeled from the courtroom, back to the infirmary cot at the county jail. There she will await the result of her attorney's efforts to win a new trial.

Arguments for a new trial have been set for March 24. If they are denied, an appeal to the State Supreme Court is planned.

Tantum to Death

The verdict was regarded by many as tantamount to a death sentence.

Fifty Kansas Farmers Marooned,
Five Missing; 10,000 Acres are
Flooded by the Swollen Missouri

Atchison, Kas., March 7—(AP)—A swollen and rampant Missouri river, inundating 10,000 acres of bottom farm lands, had marooned 50 persons this morning and five were missing, as farmers, in increasing numbers, abandoned the low lands on the Kansas-Missouri border.

The crisis had not passed. Flood waters, sweeping down from the Dakotas, were piling up behind a 25-foot ice jam. Rescuers risked their lives in small boats as they attempted, amid floating ice, to reach houses in which people might have sought refuge on upper floors.

The family of S. Nunn, which fled from its home near Oak Mills, Kas., last night, returned to the edge of the flood hoping to salvage belongings this morning to find the house crushed, turned completely upside down and resting on jagged jaws of ice.

A rescue party seeking Mrs. Doll Johnson reported trapped in their farm home south of Bean Lake, Missouri, was unable to reach its objective.

No lives had been reported lost but persons below the flooded area were rushing to safety in fear of a break in the ice which would release the huge reservoir formed above the natural dam.

Deputy Dillinger Took Along
as Hostage Freed of Suspicion
by Crown Point Judge This Morn

Turnkey Still Being Held
as Helper in Escape of
Notorious Killer

Chicago, March 7—(AP)—The federal government joined today in the hunt for elusive John Dillinger, escaped desperado.

Dillinger, "seen" in a hundred different places but found nowhere, has been on the loose five days now and is the object of one of the greatest manhunts in recent years.

Two attaches at the Crown Point, Ind., jail from which Dillinger made his "movie" escape, were taken into custody late yesterday, charged with aiding and abetting.

One was released on his own recognizance by Judge William Murray.

He is Deputy Sheriff Ernest Blunk, fingerprint expert of the jail, of whom Judge Murray said: "I'm satisfied there was nothing off-color in Blunk's performance. He didn't have any nerve—that's all that was wrong with him."

Turnkey Held

Turnkey Sam Cahoon, 64, is the other jail guard under arrest. The federal government entered the case because Dillinger violated the Dyer Act in transporting a stolen automobile from Indiana to Illinois after his jail escape.

Authorities were guarding Cook county's banks against a possible raid by the bandit leader and fugitive members of his squad.

Governor Paul McNutt had before him a report of the management of the Crown Point jail. He said he could not remove Sheriff Holley, pointing out that the power was vested in the county's Circuit Court.

The head of the Lake County Commissioners called on Sheriff Holley to resign "for the good of the Democratic party," but the woman Sheriff promptly refused.

HENCHMAN ON TRIAL

Lima, O., March 7—(AP)—Disclosures of a stealthy but fruitless invasion of the County Prosecutors' office and of evidence indicating a bribery attempt today accompanied the murder trial of Harry Pierpont, a John Dillinger henchman.

Brigadier General Harold M. Bush, in charge of National Guard forces here, coupled these disclosures with a statement that "politics and an alliance with the underworld have made Lima a very dangerous place." He did not identify the object of his remarks.

Pierpont's trial on a charge of first degree murder in the slaying of Sheriff Jess Barber last Oct. 12, when Dillinger himself was freed from the Allen county jail, went into its second day today with eight men and four women tentatively seated in the jury box, as the city remained nervous from a burst of machine gun fire last night.

National Guardsmen, testing a new machine gun in a range at the courthouse, caused the temporary alarm.

Office Entered

General Bush declared Prosecutor E. M. Botkin's office on the tenth floor of the old City National Bank building was entered through a limited door early yesterday and carefully searched. Nothing was obtained as Botkin has not kept important trial records there, Bush said.

His investigators also uncovered evidence, the National Guard officer said, that one of the special deputies on duty in the jail where Pierpont is held along with Charles Makley and Russell Clark, other Dillinger gangsters, had been offered \$1,000 to smuggle a gun into the jail.

Sheriff Don Barber, son of the slain officer, declined to comment on this matter, but said one deputy had been transferred to other duties because he nearly made the error of walking into the jail with a gun on his person.

Former Head

Govt. is Dead

LORD ABERDEEN

Tarland, Aberdeenshire, Scotland,
March 7—(AP)—John Campbell
Hamilton-Gordon, first Marquis
Aberdeen and Temair and former
Governor-General of Canada and
Lord Lieutenant of Island, died at
his home, Cromar, today. He was
87 years old.

A contemporary of Gladstone, he
clung tenaciously to the political
idealism of the great liberal of the
Victorian age and it was related
that his second appointment as lord
lieutenant of Ireland was confirmed
by King Edward VII only after
misgivings.

Lord Aberdeen was a liberal also
in his daily life. Twice his democ-
ratic tendencies and those of his
wife were the subject of court in-
vestigations, the first by Queen Vic-
toria and the second at the direc-
tion of King Edward, both stinklers
for court etiquette and the main-
tenance of "position," particularly
by peers who acted in viceregal or
capacities.

Queen Victoria had Lord Rose-
bery ascertain whether it was true
that the Aberdeens dined once a
week in the servants' hall. The re-
port was negative but the stories
persisted into King Edward's reign
and the latter also had to be as-
sured that viceregal dinners and
parties were carried out "in the most
correct manner and under the
chamberlain's rigid directions" while
the mingling with the servants
was confined to daily assem-
blages for family worship.

ALLEGED THEFT
OF \$1,100 FROM
SAFE IS PROBED

I. N. U. Co. Office is
Reported Robbed
Over Week End

Insurance investigators were in
Dixon today investigating the re-
ported burglary of the safe at the
Illinois Northern Utilities Company
offices over the past week end
when approximately \$1,100 was al-
leged to have been stolen. Chief
of Police J. D. Van Bibber spent some
time this morning at the utilities
offices fingerprinting employees, it
also developed. At the police sta-
tion no information would be made
public.

It was reported Monday that a
robbery had been committed at the
utilities company offices and when
queried by a Telegraph representa-
tive, company official emphati-
cally denied the report and stated
that fingerprint examinations per-
taining to another investigation
which was being conducted by
Chief Van Bibber.

From limited sources of informa-
tion it was learned today that the
door in the north side of the office
building was found open Sunday
morning by employees of the com-
pany. Monday morning, it was re-
ported, the fact was learned that
the large safe on the first floor had
been opened, apparently by some
person familiar with all of the
combinations and apartments, and
that approximately \$1,100 had been
removed.

Police today continued to sup-
press news of the situation.

Had Been Stricken

A similar provision also spon-
sored by Rep. W. W. Powers, Chi-
cago Democrat, was stricken from
the liquor control plan now in ef-
fect at the insistence of Horner.

Voting 35 to 1, the Senate ap-
proved and sent to the Governor
the emergency bill exempting non-
beverage alcohol from the 50 cent
gallage tax on hard liquor.

Approved by the administration,
this bill was agreed upon in return
or support of the liquor control
bill in January. It was insisted
upon by legislators who have in-
dustrial alcohol plants in their dis-
tricts.

Amendment Beaten

The Senate passed the beer bill
after it voted, 28 to 5, against con-
sideration of an amendment which
would have nullified the authority
for local officials to issue licenses
for the sale of beer over bars.

The Governor has strongly op-
posed an authorization for bars,
saying that they would permit the
return of the pre-prohibition sa-
loon. When the House passed the
bill, he telegraphed from Arizona
a strong protest.

Senator Louis O. Williams, Clin-
ton Democrat, failed to get the
bill recalled to second reading for
consideration of an amendment
which would limit beer sales to
bona fide counties, as is now per-
mitted in the liquor control act.

Despite the prohibition against
bars, they are being used in many
Illinois taverns.

The beer-over-bars bill was op-
posed on the roll call by Senators
Barbour and Woods, Republicans;
and Karmaker, Mayor, Stutleville
and Thompson, Democrats.

The compromise school financ-
ing plan was changed today to pro-
vide that two-thirds of the diverted
motor fuel tax funds should be tak-
en from the municipalities and one
third from the counties.

As originally agreed upon late
yesterday, the plan was for coun-
ties and municipalities to share the
cost equally.

Horner's Measure

Characterized as "an administra-
tion measure," bills were introduced
today by Rep. Thomas Sinnott
of Rock Island, Democratic leader,
to provide 2-3 of each cent of the
gas tax money received by the
cities and villages should be di-
verted to the state school distribu-
tive fund and that 1-3 of each
cent received by the counties
should go to the same purpose.

The three cent a gallon gas tax
is now split equally between the
state, counties and municipalities.
The change was made because
some counties are now diverting a
large part of their allotments to re-
tirement of emergency relief bonds.

With the heavier load on the
cities and villages, there would
still be some funds left for road
work after diversion to unemploy-
ment and school relief, administra-
tion leaders said.

ASSEMBLY VOTE
AGAINST WISHES
OF GOV. HORNER

Executive Is Expected to
Veto Measure to Al-
low Beer Sale

Springfield, Ill., Mar. 7—(AP)—
The Senate today passed the Sin-
nett-Devine House bill to permit
the sale of beer over bars after it
had rejected an administration re-
quest to amend the measure.

The bill now goes to Governor
Horner, who has indicated that he
will veto it.

The vote was 34 to 6, well over
the constitutional majority need-
ed.

It was the second time today
that the second special session had
voted contrary to the Governor's
wishes. The House passed and sent
to the Senate the Powers bill spec-
ifying that no alcoholic liquor
shall be sold at retail as "whisky"
unless 75 per cent by volume has
been aged in oak barrels. The
vote was 64 to 30.

Chicagoan's House

Cannot be Found

Chicago —Melzar Delano had a house. The house had a number—9376 Krieter Avenue. He had received a tax bill for it. But when he came back from the loop his house was gone. He told police, who thought skeptical, investigated. Their theory, after finding no house, was that neighbors had torn it down and stuffed it, board by board, into their furnaces for fuel.

PRISON GUARDS
PREVENT BREAK
IN TEXAS TODAY

Three of Five Would-be Fugitives Foiled in Attempt

Huntville, Tex., Mar. 7.—(AP)—Three of five prisoners who attempted to break from the state penitentiary were critically wounded by guards when their escape was frustrated early today. The five convicts escaped from a cell row by means of a key they had made in the prison blacksmith shop. They descended a fire escape in the vicinity of the death chamber, to the prison yard where they overpowered an unarmed guard, Howard Bass.

With one of the convicts pressing a knife against his throat, Bass called for help and attracted the attention of another guard who shot the prisoner holding the knife. The other four ran to a ladder and began to scale the wall and two of them were shot by guards before the ascent was halted.

At present he is unable to be at his new duties because of an attack of sickness which confines him to his home.

Rail Activities At

Nelson Picking Up: More Men Work

The resumption of activities in the Northwestern yards at Nelson after a long shut down was apparent today, according to reports which were circulating among railroad employees. Ten days ago a switch crew went back to work and there are now indications that another crew will be called back to duty within the next few days. It is also reported that several hundred tons of new steel rails are to be hauled to Nelson during the summer months and will be stored in the yards at that place which will furnish employment for several former maintenance of way workers. Some of the new rails will be used in relaying the main line tracks between Dixon and DeKalb; it is reported, and this work will be done by employees who are out of work instead of by extra gangs as in years past.

Neurocalometer Service
It is vitally essential in the successful treatment of nervous diseases to be able to find the exact location of the nerve or nerves affected. The Neurocalometer is a very precise, delicate instrument created through research, for that purpose. Not only is it capable of locating the precise nerve involved, but also it is able to show when the trouble has been removed. The Neurocalometer examination is as vital to nerve conditions as is the X-ray to bone and deep tissue examinations. You owe it to yourself to have this test made.

CONVICTION TO

penalty for Dr. Wynkoop, who had collapsed time and time again during the fourteen day ordeal of this—her second trial. She suffered a complete collapse from heart disease during her first hearing last January. There was a likelihood, some physicians said, that she would die of natural causes before she goes to prison—if she goes.

The first of the two ballots taken by the jury last night was reported to have been 11 to 1 for conviction. Two jurors were reported to have voted on the first ballot for the extreme penalty—death in the electric chair—which Prosecutor Charles S. Dougherty indirectly demanded in his closing arguments. He said:

"I ask you to do unto this defendant as she did unto Rheta Wynkoop."

Report at 7:50 P. M.

Several hundred "murder fans" heard the verdict. The court room was jammed to the point of suffocation when the jurors, tapping on the door of their room at 7:50 P. M. announced they had arrived at their decision. There was a 35 minute delay, due to the fact that Dr. Wynkoop's attorneys, Milton and W. W. Smith and Frank Tyrell were not yet in the courtroom.

When the verdict was read by Foreman Fred Oswalt, oldest member of the jury there was a murmur of apparent protest from some of the spectators.

Dr. Wynkoop stared straight ahead—insert. A moment later she was wheeled away to an anteroom where Dr. Catherine and Walker chafed her hands and whispered to her, but it was the mother and not the children who did the consoling—striving to reassure them that it was not she who chloroformed and shot Rheta.

Walker Wynkoop called the verdict a "dirty stab," adding that he was getting a \$5,000 loan on some property to finance an appeal. Dr. Catherine said it was an "outrage." Burdine Gardner of Indianapolis, father of the dead Rheta, apparently was completely satisfied.

"Twenty-five years," he exclaimed. "Justice has been served."

Prosecutor Dougherty, who had indicted the defense suggestions that a powder might have slain Rheta or that the girl had killed herself to "spite" her "in-laws" was accosted by the defendant's sister, Mrs. Mahle Patricio, who ran up to him, crying:

"She's innocent. You know she's innocent."

"I know in my heart that she's guilty," he replied, "but I do feel sorry for her."

Four Verdict Forms
The jury received the case at 6:15 P. M. after a day of closing arguments and after Prosecutor Dougherty had attempted in vain to submit a manslaughter form of verdict for the juryman's consideration. He was opposed by Dr. Wynkoop's attorneys, who were sustained by the court.

"It's either murder or acquittal," Judge Miller ruled in permitting the submission of but four forms of verdict. They were: murder with the death penalty; murder with life imprisonment; murder with any prison term over fourteen years; and acquittal.

Will Give Book Review Thursday
Perhaps in no part of the world are there more gripping stories of romance, of political intrigue, and of patriotism, than in Yugoslavia, a country formed by the Versailles treaty, following the World War.
Bordering on the beautiful blue Adriatic Sea and broken by the Balkan mountains, this little country affords a feast of gorgeous scenery.
The peasants, poor and downtrodden, try to sing away the misery of their plights. Their story is ably told by one of their own countrymen, Louis Adamic, now an American citizen, and author of several books. "The Native's Return," as Mr. Adamic calls his latest pen production, will be reviewed by Mrs. Bailewell at her home Thursday afternoon.
"The Native's Return" was voted the best book of February, by the Book of the Month Club.

FREEDOM OF COMMUNICATIONS.

Up to one year ago the suggestion that the government establish control over lines of communication, telegraph, telephone and radio, would have implied nothing except just that—that the government should pass on matters that states were unable to determine because of interstate character.

Since the newspapers have had to battle for months to obtain a code that recognized the constitutional provision for freedom of the press and made sure that signature of the code did not waive it, new questions arise in connection with government control of communications.

Senator Schall of Minnesota sounded the warning in the senate following the President's proposal that a commission for such control should be provided. He said:

"The newspapers of the United States are about to have themselves censored. After battling for months to force the Roosevelt administration to guarantee freedom of the press in the publishers' code, they now find themselves confronted with the very same censorship by the demand of the President for a federal communications system."

"Under such a commission every dispatch and every cable message can be censored by the administration. What have the newspapers gained by their code fight if they permit their news dispatches to be censored?"

"With a system as suggested by the President not one word of the squalidness committed in Washington could reach the people of the United States."

"Not a publisher up to date has sensed the danger in the demand sent to congress."

"What the newspapers and the people of the United States need most at the present moment is a legislative bureau in Washington to follow all legislation introduced and see to it that the dictatorship now in the making is thwarted."

Of course such censorship as is foreseen by Senator Schall would not be crudely done. Newspapers would be slowly throttled in a manner that would not attract the attention that resulted from the sweeping order on air mail. The process would be one of chloroforming slowly. First, the newspapers would be acquainted with the powers of the administration over them. They would be permitted to know what the administration desired. If a newspaper were inclined to respond in the wrong way, it could be put to considerable inconvenience and expense in obtaining its services of communications.

In other words, it would be possible to put the same fear in the newspaper offices that now exists and has existed in the radio broadcasting stations, the fear of economic death, a term invented by this administration.

For instance, in August, H. A. Lafount of the federal radio commission said it was "the patriotic if not the bounden and legal duty of all licensees of radio broadcasting stations to deny their facilities to advertisers who are disposed to defy, ignore or modify the codes established by the NRA."

Mr. Lafount added that the character of the programs broadcast would be taken into consideration when application was made for a renewal of license.

Could anything make clearer than that the processes that would be adopted in censorship of the press once the bureau of the government got the press surrounded by powers over its facilities?

Senator Robinson asserted in the United States senate that Capt. Eddie Rickenbacker, after flying from the Pacific coast to Newark in a commercial plane in thirteen hours had been scheduled to broadcast, but had been cut off the air by orders from Washington.

If that is true it is pretty raw.

What the public should get into its mind is that assault upon freedom of the press is not an assault upon the press alone, but upon the rights the people reserved to themselves; rights prohibited to the United States government in the first article of the Bill of Rights of the constitution.

Newspapers can deliver at your doors the kind of news the government is willing it shall deliver and can collect from you and carry on its business, but do the people who look to their newspapers to be their sentinels on guard want blinds put over the eyes and a gag put in the mouth of their sentinel?

That is the notion of those who would make a puppet of the supreme court and overrule the constitution that ever has been your protection against governmental sabotage and vandalism.

I am not a professional murderer.—Prince Youssouppoff, who says he killed Rasputin.

We are attempting to demonetize politics. In other words, we want to put politics back in the amateur class.—Senator Arthur Vandenberg of Michigan.

Idleness, coupled with overcrowding, will blow the lid off any prison in time.—Austin H. MacCormick, New York corrections commissioners.

WEDNESDAY, March 7

(Read John XVI:1-10)

"I Am the Vine,"

Ye Are the Branches"

Most prayers are unanswered.

This is the chief cause of the general skepticism concerning prayer.

Men are not made doubters by philosophical arguments, but by the facts of experience, the most conspicuous of which is that the majority of prayers are not answered.

They are not answered because offered in defiance of law.

All promises are conditional. If the condition is not expressed, it is implied.

We ignore the condition and wonder why the promise is not fulfilled.

"Ye shall ask what ye will and it shall be done unto you." On the face of it that sounds like nonsense.

But those words do not stand alone. They are preceded by, "If ye abide in me and my words abide in you."

That is a big "if." It is only when we abide in Him and He abides in us that we can claim the promise.

To abide in Him means to be united with Him as closely as the branch is united with the vine. It is only when He becomes incarnate in us that we can ask what we will.

Prayer: O Thou who are the source of our life and light and love, work through us for the fulfillment of Thy plans.

May we allow no secret sin to check the flow of Thy life through us, but may we by obedience to Thy commandments be the effective instruments of Thy will. Amen.

Everyday Religion

(By Dr. Joseph Fort Newton.)

What dividends has the depression earned for us? What lessons, if any, have we learned to guide us in days to be? Surely, if it has taught us nothing, we must be utterly blind if not stupid.

For one thing, we have been shown in facts and figures the meaning and waste of war. Calvin Coolidge estimated that the World War, when the books are closed will cost our country one hundred billion dollars.

In short, we cannot burn up and blow up the wealth of the world and not suffer poverty, taxes and desolation. To put it otherwise, if we are to have a hideous dance of Death we must pay the Fiddler.

As all the world was drawn into the war, it is plain that for better or worse the world is tied together and cannot get loose. The good of humanity as a whole does actually exist, and no people can live alone.

It is equally plain that there will be little security for anybody hereafter unless there is more security for everybody. The doctrine of every man for himself and the devil take the hindmost means, in the outworking of its logic, that the devil takes all of us.

Also, the profit motive alone ends in disaster, as selfishness always defeats itself. Any system that results in billionaires and breadlines is a failure on the face of it, and it will go over the dam.

In the hands of "practical realists," hard-headed business men, who would stand no nonsense, about moral values, the world was well nigh ruined. If it is to be pulled out of the ditch it must be by the men of spiritual vision.

To that end we must add to the vine providence an intelligent, co-operative human providence. In other words we must plan the future, employing social control for a common purpose and a definite objective.

Our rugged individualism has run ragged; it will not work unless it is reconditioned. We cannot borrow our way out of debt. We cannot drink ourselves out of depression. The moral laws have not been repealed.

Finally, unless NRA also means National Religious Activity, purifying both our morals and our morale, there will be no real recovery. So much is plain, and more will become clearer as the fog lifts.

MAN'S HERITAGE

Are you fully awake to the music of God?

As expression in the soul and the sky and the sea?

Are you fully alive to the song which it sings?

Of the beauty of life and the glory of things?

Can you touch with your heart the general scheme?

Or the purpose persisting with God's own dream?

And reflect in your smile all the joy that you feel?

In his power to grow and perfect and reveal?

If not, look about you and drink with your eyes.

All the grandeur and splendor of God's enterprise.

Drink, drink with your eyes and your soul.

All you can.

For the glory of God is your heritage, man?

Daily Health Talk

BED REST

At the Trudeau Sanatorium in Saranac Lake, New York, they tell a story about how the pioneering tuberculosis physician, Dr. Edward Livingston Trudeau, had a graphic demonstration of the curative value of bed rest.

It seems that one of Trudeau's first patients was a young Canadian with much animation and as much tuberculosis. The high spirit of this young gentleman, his love of sports and good company, kept him moving about much more than Dr. Trudeau would willingly permit him.

One day this young man, while out on the ice-covered lake, showing off his skill as a skater, fell and broke his leg.

Dr. Trudeau took an inordinate amount of time to mend his patient's broken leg. As he confessed later, it was too good a means of keeping his patient in bed.

And in fact, the young man, after being kept in bed for several months, not only mended his leg but also his tuberculosis. Thereafter he was a valued assistant to Dr. Trudeau.

Like the gay young man about whom this story is told, most of us fail to appreciate the value of rest.

We seem to labor under the impression that sleep and staying in bed consume time and shorten life. On the contrary, adequate sleep and periodic doses of extra rest probably lengthen our lives, and, if not prolonging our days in actual numbers, certainly contribute to our capacity better to enjoy them.

joy and better to profit by the time we have.

The idea of taking an annual vacation is now fairly well rooted in the minds and habits of the American public. It would be no small advantage if we could also develop the habit of taking a periodic, say weekly, small vacation of an extra half-day in bed.

House at Edge of Town Destroyed by Fire Monday Night

The Herman Beck residence located on Woodlawn Avenue near the Pump Factory road, south of the city limits was completely destroyed by fire Monday night. The flames, which gained rapid headway while the family slept soundly, had spread throughout the small dwelling before being discovered. An alarm was turned in at the city hall and the community truck responded, but the fire had gained such headway that the building with its contents could not be saved. The family escaped from the burning building with only a few articles. The loss was reported to be partially covered by insurance. The origin of the blaze had not been determined today, but it was believed to have started from an overheated stove.

The big woodpecker bored away until it heard wee Dotty say, "Gee, I should think you'd get tired out. Why don't you rest a while?"

"We're visitors around here you see, and it would be as nice as it could be if you would tell us all about yourself, then work more after while."

"Well," said the bird, "I don't mind. It is very seldom that I find wee youngsters who are very

friendly. Most of them throw stones at me.

"Just why they do it, I don't know. From tree to tree each day I go, just looking for some insects that a ruining a tree."

"Oh, some kids think that it is fun to hurl big stones, then turn and run. But we won't do it. Don't you ret," said Scouty with a grin.

"We have met strange animals

and birds, and there's been naught but friendly words. You'd be surprised if you knew all the places we have been."

They chatted for an hour or so and then the bird said, "I must go back to my work. I've loafed too long. Please call again some day."

"Right now, why don't you all travel through the woods? You'll see a sight that's new, if you can find Tim Turtle. He is around here every day."

"Let's look for him," one Tiny cried. "If he is big, we will have a ride upon his back." Then wee Goldy yelled, "Our search is over. Gee!"

Here comes a turtle. It must be Tim. And look! A man is riding him. The way he makes the turtle move is quite a sight to see."

Then Tim came near. The Tinsies saw a sight that filled them all with awe. The man upon the turtle had a fish tied to a stick.

The man cried out, "Tim likes to eat. That fish, to him, would be a treat. He runs while trying to grab it. It is a trick that naa worked out slick."

(The Tinsies meet Bobby Bunny in the next story.)

Prior to 1904 "Hail, Columbia" was played as a national anthem in the navy. In March, 1904, the secretary of the navy recommended that "The Star-Spangled Banner" be adopted, but it was not until 1920 that the navy designated it as the national anthem.

NEED PROGRAM IN ACQUIRING MARGINAL LAND

Up Until Recently U. S. Officials Were Without One

(EDITOR'S NOTE: This is the second of a series on plans of the government to use land to be bought and retired from agricultural production.)

By Stephen McDonough
(Associated Press Staff Writer.)
Washington, March 7.—(AP)—In attacking the problem of land use the government faces difficulties which have been accumulating for more than 100 years, for land abandonment began in the east when western lands were thrown open to settlement.

At least six considerations must be kept in mind as the program is mapped out. First of all, the impoverished condition of thousands of farm families must be improved.

After that comes the necessity of eliminating farm surpluses permanently, which will involve purchasing some productive as well as sub-marginal land; controlling floods; renewing the nation's timber supply; restoring wild game life and providing natural parks and nature-study areas.

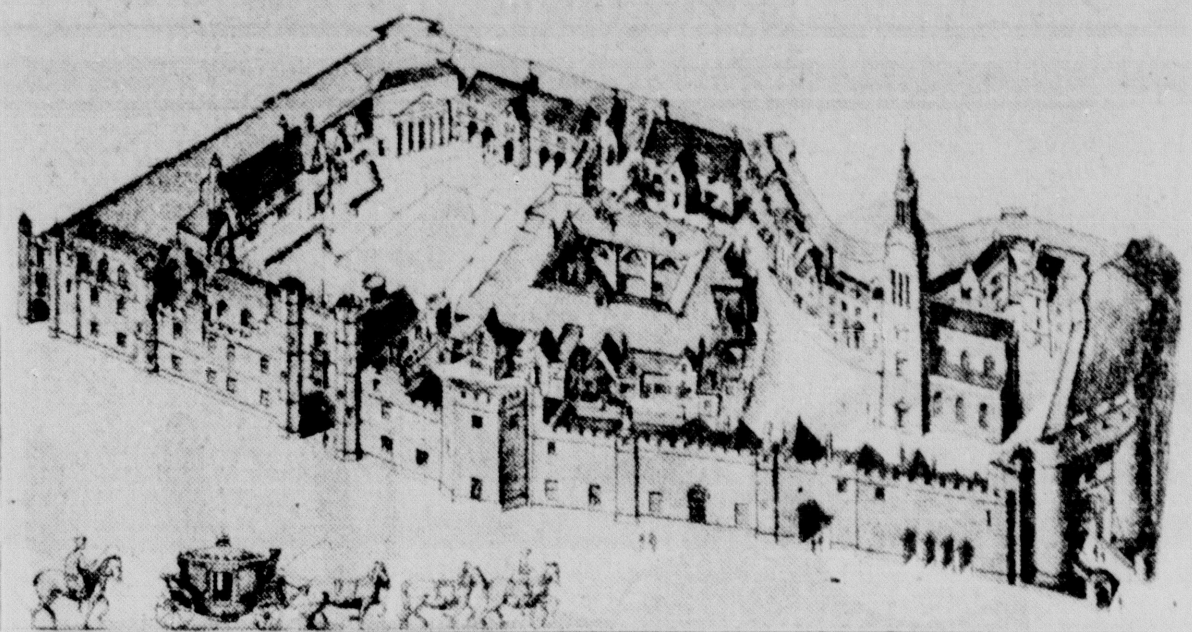

Program Needed
To date the Department of Agriculture, Subsistence Homestead Division of the Interior Department, and Federal Surplus Relief Corporation have been at work on separate plans and ideas. And to the question "what do you intend to do with this land?" the answer until recently has been "we don't know."

However, with selection of areas in which \$25,000,000 now available will be spent, the necessity for a program is apparent.

They have set up the requirements for a coordinated land program. These are: bettering the living conditions of the people on areas bought; guaranteeing more efficient use of schools and churches; assuring the people of a steady, even though small, income; provision of constructive work in small industries which have a ready market, and self-supporting and self-liquidating use of the land.

Some of these ideas "may sound radical," says L. C. Gray, Land Economist of the Department of Agriculture, "but the radicalism of yesterday has become the liberal-

PRESIDENT TO SEEK AN EARLY END OF SESSION

Wants Congress to Go Home by Mid-May at the Latest

Washington, March 7.—(AP)—President Roosevelt is understood to be ready to bring about adjournment of the 73rd Congress at the earliest possible moment and by mid-May at the latest.

Only one more message will be sent to Capitol Hill, relating to war debts negotiations. It is described in usually reliable quarters as more in the nature of a report than a proposal for new legislation.

There is every indication that the President is willing to sacrifice some "pet" measures now before Congress in the hope of pressing the existing program to conclusion.

Speed Appropriations
Congressional attention, it is indicated, will be focused henceforth on passage of the necessary appropriation bills to keep the government in funds next year; the loophole plugging income and general tax measure and the reciprocal tariff bill upon which house hearings open tomorrow.

Roosevelt is confident, however, that the bill to coordinate all communications under a single communication.

CHICAGO HEALTH DIRECTOR; HOTEL FACE BIG SUIT

Result of An Epidemic of Dysentery in Metropolis

Chicago, March 7.—(AP)—A suit for \$600,000 damages, an outgrowth of the epidemic of amoebic dysentery during the World's Fair last summer, has been filed against Dr. Herman Bundesen, City Health Commissioner, and the Congress Hotel.

Charging that the defendants "wilfully and wantonly" withheld information about the epidemic from the public and medical profession, Dr. Clarence Boren, and his wife, Gertrude, Marinette, Wis., asked \$150,000 each yesterday from each of the defendants.

"For Financial Gain"
The suit charges the information was suppressed for the financial gain of the hotel and to protect the reputation of Dr. Bundesen.

"Even after Dr. Bundesen received information disclosure, he did not make this known to the medical profession, the public, or the plaintiffs, and failed to quarantine the hotel and its infected personnel."

The suit said that Dr. and Mrs. Boren were in New Orleans at the time of filing of the bill, the physician under medical treatment and critically ill.

The plaintiffs said they contracted the disease when they came to see the Fair and stopped at the Congress hotel.

Became Known Nov. 3
Dr. Boren said that had the American Medical Association been notified he would have learned through association bulletins and have protected his health and that of his wife by avoiding the hotel.

Although the outbreak reportedly was under investigation early in the summer, it did not become public knowledge until Nov. 9, the last week of the exposition.

Dr. Morris Fishbein of the American Medical Society said that more than 40 deaths resulted from the outbreak, and that 740 cases were traced to Chicago hotels. The death of Texas Guinan, night club hostess, was traced, he said, to a Chicago source.

It's a "Whatsit," if you're curious about this queer, tailless plane, shown at the Glendale, Calif., air terminal before its first public air test. It's the invention of Waldo Waterman, Santa Monica, Calif., veteran flyer, a 1100-pound two-passenger ship which a 100-horsepower, air-cooled motor drives at 100 miles an hour. The wings, which have a 50-foot spread, slope backward at a 25-degree angle, and the wing tips have stabilizers.

AMBOY DEFEATS HARMON AS LEE CENTER FAILS

State Basketball Title Tournaments Get Going Last Eve

By BRADLEY MOLL
The district tournament held this year at Sterling started in fall swing last night with the usual four games being run off in great style. The big night for the Sterling-Dixon fans will be of course tonight when the Sterling team goes into action against Lee and Dixon against Erie, the Dixon game being scheduled at or for 7:45 and the Sterling game to follow immediately afterward. The Dixon fans expect to follow their team in its first battle, and there can be little question about the Dixon lads anticipating a good following from Dixon.

Last night's games simply reduced the number of teams contesting, and brought the teams that much closer to the semi-finals. The games last night with the exception of the last game were rather one sided affairs, with pep enough to keep the fans going and that is all. The first game was between Amboy and Harmon and from the very start turned out to be a slaughter for the Amboy boys who led the Harmon lads in this manner:

Harmon 2-9-12-16; Amboy 13-19-26-40, and the final count being 40-16 terminating the first of the one sided battles.

Rock Falls-Hoopole
Game number two held the local interest temporarily, with Rock Falls rating Hoopole for their contenders. Hoopole in the first quarter showed enough spirit to squelch the Rock Falls lads, but the scoring as a rule went to the green and black boys, who led the Hoopole five thus:

Hoopole 3-3-4-2; Rock Falls 6-11-10-1. The Hoopole boys seemed to lack the necessary drive to get them the points, but that they handled the ball quite well there is little doubt, excepting of course their basket shooting. Rock Falls looked rather ragged in the game and despite their win, credit must be given to the Hoopole lads.

Lee Center Swamp
The third game of the evening was another riot, with the Tampico lads easily keeping the ball above the heads of the Lee Center five, who were at a decided disadvantage in the realm of height. The scoring from the Tampico viewpoint was extremely rapid, and the Lee Center outfit had a hard time getting near the basket even to get a shot, let alone make one. The scoring was as follows: Lee Center, 0-5-3-4; Tampico, 12-6-12-24; or 54-12 in favor of the Tampico lads who will play Rock Falls Thursday night at 8:45.

Paw Paw Wins
The last and by far the best game of the night was between Paw Paw and Prophetstown, who both were reputed to have good teams, Prophetstown being classed as one of the runner ups in the tournament. It was a decided close contest as the score of 20-19 in favor of Paw Paw will indicate.

The center from Prophetstown, Farry, looked good, and has an enviable scoring record for the season, averaging somewhere around sixteen points per game. The Paw Paw outfit at another runner up looked very good, playing a hard fast game, and having a good passing attack and pressing Prophets-town at every turn. At the quarter Prophetstown led 3-1, and 8-2 at the half. Paw Paw came back in the last half with 18 points and winning the very close, well played, and exciting game by one point, which brought the fans to their feet, and filling the Coliseum with the cheers of interested onlookers.

The games tonight will in addition to the Dixon and Sterling games will be West Brooklyn vs Lyndon, and Walnut and Ohio. Sterling playing the winner of the West Brooklyn game Thursday night (if she wins), and Dixon playing the winner of the Walnut game Thursday night (if she wins). The other game Thursday night will be between Amboy and Paw Paw which should give some good basketball to the fans that night. Dixon by the way will be led by two co-captains, namely Lyle Bellows, center, and "Slate" Hasselberg, guard and who will take the Dixon five into action tonight at 7:45. Turn out fans, and give the purple and white a real break.

Chicago, March 7—(AP)—By late tonight more than half of the field of 863 teams which carried high hopes to 62 district basketball centers, will be ready to pack up and go home.

The firing opened yesterday, but tonight will mark the peak of production. A few teams, Casey, Chicago Heights, Galeburg, LaGrange, Robinson and Quincy, will not get underway until tomorrow.

The high scoring mark of last night's schedule went to DeKalb's powerful five which smothered Rollo, 57 to 24. Tampico, in the Sterling tournament, and Metropolis, playing on its own floor, also passed the 50-point mark. Tampico walloped Lee Center, 54 to 12, and Metropolis trounced New Burnside, 51 to 12.

Brimfield was forced to forfeit its first rounder in the Elmwood tournament because of a scarlet fever scare, sending London Mills into the second round. The only overtime contest reported was Wyoming's 20 to 18 triumph over Maquon, at Elmwood.

ARTHUR MULLEN RESIGNED FROM DEM. COMMITTEE

Roosevelt's Chicago Floor Manager May Seek Senatorship

Washington, Mar. 7—(AP)—Another lawyer-vacancy in the ranks of the Democratic National Committee was assured today as Arthur F. Mullen of Nebraska handed in his resignation— with President Roosevelt's consent.

In a warmly personal letter addressed to "My Dear Arthur," the Chief Executive said he appreciated "the motives which prompt you to take this action." He expressed his "personal friendship" and added he still counted upon his advice on matters of national welfare.

The President's recent criticism of committeemen practicing law before government agencies here was said by Mullen not to have constituted his reason for resigning.

Denies Inference
He denied what he termed a published "inference that my activities as a practicing attorney in Washington were unethical and embarrassing to the administration." The reason, he wrote the President, was that in view of pending legislation to prevent politically influential men from practicing law before federal agencies he felt his continuance as a committeeman might be construed "as indicative of opposition to you."

Mullen, who was floor manager for Roosevelt at the Chicago convention, asked that the Nebraska Democratic State Central Committee meet to accept his resignation and choose a successor.

There were reports today that Mullen might enter the race for the United States Senate from Nebraska.

Route of Kansas City's powerful Democratic machine, ruled by Tom Pendergast, shown left in typical "boss" pose, is the aim of a "militant youth" fusion ticket, which hopes to achieve in the Missouri city what LaGuardia did against Tammany. The ticket is headed by Dr. A. Ross Hill, above, for 13 years president of Missouri University. Hill is a Democrat.

Illinois Baseball League in Mendota Monday night. There will be 16 teams in the league this year, which is separated into eastern and western divisions. Lee Center is in the east division, which includes Troy Grove, Mendota, Paw Paw, Compton, Welland, Scarborough and West Brooklyn. In the west division are Walnut, Ohio, Dixie Oilers, Arlington, Amboy, Maytown, Mendota Merchants and LaMoille.

The Lee Center high school basketball team will play Tampico at the Sterling tournament Tuesday evening.

Miss Slavmaker spent the week end at her home in Erie.

Mrs. W. J. Leake and Mrs. W. S. Frost attended the 1 o'clock dinner of the Eastern Star past matrons club held at the home of Mrs. F. N. Jewett in Amboy last Friday.

The public is most cordially invited to attend and especially all candidates whose names appear on the Democratic and Republican lists for the elections in April. Special musical numbers sponsored by various candidates will be presented. Come and meet your favorite candidate for the many county and district offices, enjoy a good dinner and help along a good cause. The March and April committee consisting of Mrs. S. L. Shaw, Mrs. S. E. Dishome, Mrs. Coy Beene and Mrs. James Dale, are in charge of the supper. Don't forget the date, Wednesday, March 14, at 6:30 P. M.

Mrs. Harold Frost of Amboy spent Monday at the W. S. Frost home.

Lee Center finally played West Brooklyn Tuesday night, Feb. 27, on the local floor. This game had been postponed several times because of numerous and varied reasons.

Early in the game Lee Center started scoring, going into a lead which the team kept throughout the entire game. In the last half the lead for Lee Center was so great that the reserve team was sent in to finish the contest. Lee Center won by a score of 25 to 9.

This score is much more favorable for local fans than the result of the first game at West Brooklyn early in the season.

The Lee Center grade team met

West Brooklyn's grade team. This was an interesting contest. Lee Center won by a score of 23 to 11. High point man in this game was C. Chelsey.

Lee Center played Harmon at Lee Center last Thursday night. The game was supposed to have been played at Harmon, but then was changed to Amboy for Friday afternoon, and finally changed to here for Thursday night. Lee Center played Harmon here just a little over a week ago and lost by a small margin, the score being 23 to 20 in Harmon's favor.

The Lee Center team was slow in starting, but finally hit their stride in the second quarter. The reserve team finished this game. Lee Center won 33 to 18, due principally to a great rally in the last half.

Harold Donnelly made some exceptionally nice long shots. This sort of shot is difficult to make because time and caution must be taken in making them. Harold made four out of five attempts.

Heide was particularly good against Harmon also. Seemingly, Harmon was afraid of him because he was for the most part unopposed when he had possession of the ball.

This being the last home game of the season, and also a victory the results are more than pleasing. This also ends the basketball careers of two star players in the local high school. Captain Henry Hanneman and Earl Meurer, will be lost to the squad next year which will indeed be a loss for the team. However, the material for next year is quite promising.

Friday afternoon, Henry Hanneman, Captain of the basketball squad, presented the Third Place Trophy, high the Lee Center team won at the Meridian Conference Tournament at Kings. This trophy was accepted by Alma Bohn for the school.

After this a pep meeting was held. Each member of the Conference Team was called upon for a

speech as well as a spokesman for the entire team. It is hoped that Lee Center will be able to make as good a showing, if not better, in the Meridian Conference Tournament next year and also at the District Tournament this year which is held at Sterling.

As cheer leader this year Billie Bohn proved quite efficient. Particularly was she efficient at the Tournament at Kings. However, she was unable to lead the cheering Friday. Elizabeth Conbeor proved quite capable in the capacity of substitute cheer leader, as did Steve Mortenson.

Dixon Battery Shop vs Millway Hatchery.
I. N. U. vs Ashton.

The regular weekly games of the Commercial Basketball league were played last evening at the high school gymnasium instead of this evening on account of the district high school tournament, which opens at Sterling. The Battery Shop trimmed the Beier Loafers by a score of 37-30, which marked the losers final show of the season. In the second game the I. N. U. Co., with a last minute spurt netted a 30-20 win over the Hatchery five.

Wednesday, March 14, at 7:15 the closing games of the 1933-34 basketball season will be marked by two important games. Ashton will have the last chance to dislodge the I. N. U. from a clear cut season's championship. In the other game, the Hatchery will strive to prevent the Battery Shop from becoming the third round titleholders.

By retaining a few points in front the Battery Shop managed a 37-30 decision over the Beier Loafers in a fast and exciting battle with both teams hitting the baskets often. Hilliker's five baskets led the scorers. Carlson and Fane had second place with 11 points each.

After the I. N. U. Co., had led for three quarters, the Hatchery five tied the count 20-20 with five minutes to play. Follow-up shots by Joyce and Lebre's long bucket put the league leaders on the right road. G. Lebre's six baskets and one free toss for 13 points led the scoring. Potts headed the losers with seven scores. The scores:

The ROMANTIC RUNAWAY

by KATHARINE HAVILAND-TAYLOR

© 1934 NEA SERVICE, INC.

BEGIN HERE TODAY

PABLITO, a handsome 17-year-old youth, works at the palatial Florida home of millionaire JIM FIELD.

The son of a titled Englishman and a servant girl, Pablito knows nothing of his parents. When 5 years old he ran away from ANGELA, the heartless old crone in whose care he was left. Since then he has lived with NORRIS NOYES, a mysterious individual who has seen better days.

Field's estranged wife and their daughter, ESTELLE, arrive at the Florida home. Pablito sees Estelle and almost at once falls in love with her. He hears Field tell his daughter he is planning a masquerade party in her honor. A motor boat stops at the island where Noyes and Pablito live and Noyes sees a man he knew years before in the boat. He is terrified because he is sure the man recognized him also.

NOW GO ON WITH THE STORY CHAPTER VI

FROM outside Noyes heard the sound of a balky motor and then Pablito speaking of seaweed and the best course back. Evidently Pablito knew Jeffries; evidently Jeffries was at Field's camp.

The job of repairing the engine took some time. To Noyes it seemed an hour. Pablito reckoned it as a half hour when Jeffries held out to him a silver dollar.

The youth fished in his pocket. "I get 50 cents an hour at Mr. Field's camp," he said. "I've only worked for you half an hour."

"Nonsense," Jeffries answered. "I prefer to be paid for what I do. Thank you just the same."

Pablito gave a turn to the engine and it hummed. "She'll run now," he said pointedly.

Jeffries closed it off almost violently. "Your attitude is somewhat different here from at the camp," he commented acidly.

"I am not arranging Mr. Field's swings now," Pablito answered.

"The tall, hard-faced young woman who sat at the end of the boat was staring fixedly at Pablito. His manner, a combination of only slightly veiled contempt and assurance, as well as his good looks, interested her. He had rather put Jeff down and that pleased her too. Marcia Treadway had been hearing a number of things that afternoon that had been bitter to listen to.

Years before she had laughed rather sneeringly at "young emotion." Then, in her middle thirties, she had succumbed to it. Now, realizing that she had been a fool (and looking at the man in the end of the boat as she realized this), she knew she must learn to laugh all over again at "young emotion." It would not be easy.

Marcia, in spite of all her money, felt that she had had "rather a raw deal."

"And now shall we start home, Jeff?" she asked. She added, drawing, "I am rather bored with you, I'm afraid."

Pablito watched them off. He had seen the couple flaunting their affair at the camp and noticed the indifference of Therese Jeffries, who was Jeffries' wife—an indifference Pablito felt was caused by pride.

NOYES was still cowering in the shadow when Pablito entered the shack. "Have they gone?" he whispered.

"Yes."

"He knew me—"

Pablito turned abruptly from the stove where he had been trying to rescue the bacon.

"That fellow—knew me," Noyes went on. "Is he at the camp?"

"Yes."

"He could have me sent to prison—or worse—if he told of having seen me."

**Wall St. Plunger
Claims Bankruptcy**

New York, March 7.—(AP)—Jesse L. Livermore, once known in Wall Street as the "boy plunger", has filed a voluntary petition in bankruptcy listing liabilities at \$2,259,212 and assets at \$184,900, including life insurance policies at their face value of \$150,000.

Schedules filed with the petition yesterday in United States District Court revealed a disputed claim of Naida L. Krasnova, an actress, for \$250,000, alleging breach of promise to marry.

Samuel F. Gillman, member of the legal firm representing Livermore, said last night his client had "made three very large fortunes during his career, failed three times and on each occasion paid 100 cents on the dollar with interest, and hopes to do it again."

Completely—prised
The Sunbeam class of the Presbyterian Sunday school gathered at the home of Miss June Hatch and completely surprised her. Her 13th birthday anniversary was on Tuesday but the girls thought to have the party early that it might

be a complete surprise. The class was to have met Saturday afternoon at the home of the teacher, Miss Blanche Colwell and she conceived the idea instead of meeting on Saturday she would have the meeting at June's home Friday night, and give her a birthday surprise. The meeting was opened by the president, Miss Mary Jean Miller after which the Lord's prayer was repeated after which the minutes were read by the secretary, Miss June Hatch. Several matters of business were discussed, which closed the class meeting. The rest of the evening was spent in playing various games. Lovely refreshments were served. We join with June's many friends in wishing her many more birthday anniversaries. June received many nice gifts from her class mates and friends. Roberta Kint, Josephine Kelley and Betty Bittendorf were invited guests.

New Books
A number of new books have been placed on the library shelves. This is a splendid time to join the library. In looking over the list of books one can see at a glance that some mighty good reading is in store for the members of the library. The list is not complete, as a few of the books did not come but will be in a few days. It is indeed very gratifying that our library has survived the depression, and is still in very good condition, and with careful management it is hoped that it will be kept in good order. You can join the library for fifty cents, for one year two books a week. The best reading for the least money to be found anywhere. If you are not a member plan to join at once. Following is the list of books:

We say... "Spring at this chance before Spring!"

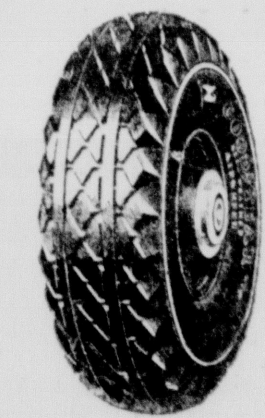

DO YOU KNOW why so many people are buying tires from us earlier than usual this year? Why Goodyear factories are humming? ... Everyone believes prices are headed upward*—and thinking car owners figure it's no saving to run risks while using up old rubber, only to pay more for new tires later... That's why we say "Spring at this chance before Spring"—this chance to buy at present low prices... Invest in a whole new set of Goodyears—you'll be glad you acted on our advice.

GOOD YEAR

Make your car a "1934 Model" in Riding Comfort—change to big super-soft

Goodyear Airwheel Tires

Goodyear builds more than 5 times as many Airwheel Tires as all other low-pressure tires combined.

• We have guaranteed Goodyears at lower prices than our All-Weather shown here—but more people buy the All-Weather! Tires are still so low in price that, unless you're trading in your car this Spring, it's best to invest in the best. That way you spread the benefit of today's great values over the most months and miles.
